

# embrowdery

feather touch lasting brows

## Want to join the Semi Permanent Brow Revolution but FEAR is holding you back?

Fear of creating the wrong shape?

Fear of cutting the client's skin?

Fear of making mistakes and dealing with an angry client?

Read on and you'll fear no more....

The Beauty World has been rocked over the last few years with the demand for Beautiful Brows. Some like them big and dark, some like them skinny and light, WE like them looking right for our CLIENT. With emBrowdery, the emphasis is on creating the RIGHT brow shape for the individual face shape, skin tone and personality.

emBrowdery also allows THE CLIENT to be in control. The first treatment does not make the brow semi-permanent. The client has four weeks to gather feedback from their loved ones on how their new BROW shape suits them and then they decide whether they want to proceed. YOU take any changes they want to make into account, and "voila" you are on the road to creating the perfect brows.

You can do all this WITHOUT pain. We do NOT blade DOWN into the skin, rather we pluck UP tiny insertions into the skin, similar to the minute holes created in the skin when plucking out unwanted brow hair. We all know that this does not create scarring in the skin. All the client

feels is a sensation similar to hair being plucked, slightly uncomfortable but definitely not painful. There will be no scabbing, no sloughing and no unsightly looking brows. The brows will look significantly lighter as we are now seeing the same quantity of pigment THROUGH the layers of the skin. We gradually build up the pigment over the full three treatments and the end result is perfect looking brows for YOUR CLIENT's face shape.

Up To My Eyes salon in Greystones has done this treatment 8,000 times over the last four years. We dedicate our days to the constant challenge of getting the RIGHT brow shape for our clients. We are fully qualified to carry out the treatment and fully qualified to teach you how to do this treatment. We are the perfect one stop shop to train you in this amazing art.

**Up To My Eyes Academy is a VTCT Approved Centre. It's time to stop making excuses and just call us @ 01 2872781.**
